I am a customer of Easley Combined Services which get their power from Duke Power.

Duke power makes plenty of money now, just look at their books and how much profit they have made.

They are asking for a raise in rates when a lot of people are out of work and prices in the grocery store have shy rocketed.

Seniors have been hit hard because of this recession, medicine and health care is out of control.

Do not let Duke Power raise rates, in fact they should be made to lower rates.
